

Appointment of Cyrille Fleury as Executive Chairman & CEO of MENIX Group

July 7th, 2022, Lyon - **Cyrille Fleury has been appointed Executive Chairman and Chief Executive Officer of the [MENIX Group](#), specialized in orthopedics and dental implants.** Cyrille joined MENIX early 2021, with the aim of strengthening the product portfolio, accelerating the digital transformation and increasing the Group's international presence. He replaces Patrick Rondot, founder of the MENIX group, who is becoming non-Executive Chairman of the Board.

Cyrille Fleury,
Président & CEO groupe MENIX

MENIX is a French holding company gathering cutting-edge technologies in the field of orthopedics (hip, knee and foot) and dental, as well as 3D digital solutions. The group is the French leader in hip replacement and facial treatment. Over the past 10 years, it has recorded a year-over-year organic growth of more than 10% reaching net sales of €101 million in 2021, and 430 employees. The group is targeting €115 million in 2022.

Patrick Rondot, President, commented:

"I am very happy that Cyrille is taking over the executive management of the MENIX group. Over the past 18 months, his leadership has enabled him to work closely with the teams and surgeon customers. He has identified the key challenges and launched the necessary projects for the MENIX group to get ready for the next phase of development. He has all my trust, and I am convinced that he will take this group to new heights."

Cyrille Fleury said:

"By joining the MENIX group, I have the chance to take the lead of a group of passionate and committed employees, who wish to restore the mobility and the smile of patients, in close collaboration with our surgeon partners. Innovation is part of the group's DNA, and we are working to expand our product portfolio & associated digital solutions, in order to treat more and more patients, and to increase our geographic footprint."

[Cyrille Fleury](#) brings more than 15 years of experience in the medical device and digital technologies. More recently, Cyrille was Country Manager for Wright Medical Group in France, focused on Extremities & Biologics, following the merger between Tornier and Wright.

The Group Management Team working with Cyrille is composed of **Christophe Marrone**, Chief Financial Officer (CFO) and **Jean-Luc Aurelle**, Chief Technology Officer (CTO).

Christophe Marrone, a seasoned financier, brings over 25 years of experience along with him. In addition to the financial aspects, he is the Group's legal counsel as well as head of HR. **Before joining the group, Christophe was CFO of Carré Blanc.**

Jean-Luc Aurelle, in addition to the technical and industrial aspects, is also in charge of the group's regulatory and clinical strategy. He brings **over 30 years of experience in the orthopedics industry.**

About MENIX Group

MENIX Group is a fast-growing specialist designer, manufacturer and distributor of orthopedic (primarily hip and knee) and dental implants, as well as 3D digital solutions. In the orthopedic business, MENIX Group enjoys a leading position in the dual mobility market in France. Dual mobility cups, which the company invented 45 years ago, significantly reduce risks of dislocation of hip prostheses and are being increasingly used worldwide. On the dental side, the MENIX Group designs and markets a successful range of dental implants and implantable devices used in cranio-maxillo-facial surgery. The company has reached net sales of €101M and has 430 employees. in 2021. It is headquartered close to Lyon, France, and owns 3 subsidiaries in Italy, Spain and Poland.
